Covid-19 Situation Update **Field Trials, Working Tests & Training Sessions**

Dear Members,

Firstly we would like to thank all our members for your valued support of the Club and wish we were in a position to bring you some long awaited good news.

However as you are all aware there are continually changing restrictions, regional and local lock downs and movement orders being applied throughout the UK consequently the Club's ability to attain landowners permissions, Trainers services, Judges, Stewards, helpers and handlers for any outdoor activity continues to be untenable.

Consequently after much deliberation, and careful consideration we consider it would be unethical to risk the safety of not just ourselves but all those involved in the event and so it is with genuine regret that the Committee has taken the decision to postpone all activities until the New Year.

I would like to take this opportunity to give sincere thanks to all those on our Committee, Shoot & Land Owners, Sponsors, Competitors, Judges, Guns, all the volunteers and helpers who have supported and worked hard only to have outside circumstances curtail our plans, lets hope 2021 is an improvement!

We hope one or two of you are lucky enough to have secured a few days shooting, beating or picking up this season and can enjoy at least some time working your dogs amongst fellow fieldsport enthusiasts.

In the meantime we can assure you that the Committee will continually monitor the situation regarding the pandemic and any changes to Government guidance or Laws and will strive to re-plan events at the earliest possible opportunity.

The Committee and Officers of the Club would like to wish you all the very best in such unprecedented times and look forward to seeing you all again as soon as humanely possible.

Keep yourselves safe and look after those dogs.
